

Kenco Engineering, Inc.

Longer Wearlife Bucket Liners

With Kenco's Modular Bucket Liners, you can make your job much easier while extending the life of your bucket. With these segmented liners you not only choose the thickness of your bucket liner, but the hardness as well: up to 500 BHN.

Benefits:

- Installs in as little as 1/2 a day
- Cost is comparable to a rolled liner
- No more wedging or jacking pieces into place
- Fits tightly on worn or non flat surfaces
- Thickness and hardness can be changed to fit the application
- Contamination of piles is not an issue!
Fits so tightly, gaps don't retain material
- Relief notches allow for secure mounting with minimum welding
- Fast 2-3 week delivery

Still proudly made in the USA
